edaForum08 - Company Presentations

"More Solutions Provided by EDA Vendors"

In order to realize the fascinating applications and promising business opportunities discussed in edaForum08´s sessions it is indispensable to have access to professional tools and design flow solutions, completed by professional services. In an exhibition and in short talks within the Company Presentations Session leading EDA vendors will present their tools and solutions for applications and issues like that discussed in edaForum08´s technical and business sessions.

Participating Companies:

The exhibiting vendors have been asked to present their answers for the problems designers face in their daily work today. This part has been prepared in close cooperation with the active and growing IC-Design Working Group representing almost 700 IC designers within the "Silicon Saxony Technology Network". The EDA vendors have been invited to discuss with companies like AMD, NXP, Qimonda, X-FAB, ZMD and many others appropriate solutions for their design projects and to give an update on their tool offering, however focussing on what is new and is solving burning issues.

Date, Time

Thursday, December 11, 2008,

9:00 am - 1:15 pm

Program

9:00 am	Jürgen Haase, edacentrum e.V.
9:05 am	Heinz Martin Esser, Silicon Saxony e.V.

[7]

9:25
am

Thomas Hötzel,
ZMD AG
and head of the Silicon Saxony Working Group IC-Design

9:45
am

Company Presentations Part 1:

-
10:25
am

Leading EDA vendors present their tools and solutions for applications and issues raised by IC designer from the industry.

09:45
am

CST GmbH

10:05
am

OneSpin Solutions GmbH

10:25
am

Exhibition and Coffee Break

-
10:50
am

The participants can discuss with leading EDA vendors about their tools and solutions.
