## edaForum08 - Program and registration online

The edaForum08 takes place on December 11-12 in Dresden. Besides keynote-speakers Simon Yang from Chartered Semiconductor Manufacturing and Daniel D. Gajski from U California at Irvine many outstanding experts from business, industry and science will present their ideas around technical challenges in EDA and on business-related topics helping to optimize the return on your EDA investment. Please have a look at the [program](#) [2] and register today.
