EFECS 2024 has been announced for 5-6 December 2024

Brussels - The Chips Joint Undertaking invites to the highly awaited return of **EFECS - the European Forum for Electronic Components and Systems**, taking place in **Ghent, Belgium**, on **December 5-6, 2024**. Registration will open soon. Mark your calendar and stay tuned for further updates and announcements regarding the event agenda, speakers, and additional details.

Strengthening EU Competitiveness

The Chips Joint Undertaking is a collaborative effort to bolster Europe's position as a global leader in the semiconductor industry. With the increasing demand for advanced chip technologies and their strategic importance across various sectors, this initiative is more vital than ever.

What to Expect at EFECS 2024:

- **Insightful presentations:** Gain a comprehensive outlook on the Chips JU programme's mission, addressing societal and industrial challenges through advanced chip technologies.
- **Valuable networking:** Create meaningful connections with stakeholders and the entire ECS community, fostering collaboration and innovation.
- **Strategic discussions:** Participate in discussions on reinforcing the EU's strategic autonomy in electronic components, supporting innovation, and enhancing technological capacity.
