

## edaForum19 - General Information

We have provided information on the topics listed below.

### Venue Berlin

As the German capital, Berlin is one of the most exciting cities in Europe and is increasingly perceived as a hub between Eastern and Western Europe. Dynamism and modernity make Berlin one of the top addresses for companies in the industries of the future. Large international companies have set up their representative offices there. Communication, creativity and entrepreneurial spirit combine at this research-intensive high-tech location to form an ideal test market for innovations.

Berlin's history, from its Prussian splendour to the division of the city after the Second World War and the fall of the Berlin Wall, is reflected in the city's architecture and museums. Some 25 years after reunification, Berlin is more vibrant than ever with its redesigned centre. The city's unique diversity can be seen in all areas such as art and culture, architecture and business, gastronomy and nightlife.
