Welcome to edaWorkshop11 & CATRENE DTC Website

This year the edaWorkshop11, the premier German EDA event for the publication and discussion of application-oriented EDA research findings, took place on **May 10-12** in **Dresden**. It has been jointly organized with the CATRENE Design Technology Conference CATRENE DTC .

We would appreciate, if you like to give us your feedback concerning the event.
For that, please take our feedback form [1]. Return by fax +49 511 762-19695 would be convenient.

If you like to take a personal visual pass in review, or if you like to know, how it looks at the edaWorkshop, then dive into our picture galleries [2] of the past events.

[3]

As "after the edaWorkshop is before the edaWorkshop" we invite you to the upcoming event:

The edaWorkshop12 will be held in Hannover, Germany on May, 8-9 2012.

So mark your calendar, we are looking forward to seeing you in Hannover then!

Prof. Dr. W. Rosenstiel
General Chairman of edaWorkshop
and CATRENE/MEDEA+ DTC
Chairman of edacentrum

Prof. Dr. E. Barke
General Chairman of edaWorkshop
Vice Chairman of edacentrum

The edaWorkshop is the premier German EDA event for the publication and discussion of application-oriented EDA research findings. The mix of representatives from industry and research creates ideal opportunities for a professional exchange of ideas on a scientific basis. The dialog can pave the way for industry to benefit from research results.

edaWorkshop is also the primary platform for presenting and exchanging solution approaches and results of EDA projects funded by the BMBF (German Ministry of Education and Research). It promotes communication between EDA experts and public authorities, and supports the dissemination of the results of publicly-funded projects. (more Information [4]).
