

Mourning for Prof. Dr. Wolfgang Rosenstiel

[1]

Tübingen/Hanover - We mourn the passing of our long-standing chairman of the board, **Prof. Dr. Wolfgang Rosenstiel**. Since its foundation in September 2001 as a board member and since October 2005 as chairman of the board, he has played a decisive role in shaping the edacentrum with the greatest commitment and skill, achieving impressive successes in close cooperation with politics, science and industry. With Prof. Rosenstiel, microelectronics has lost a personality who is also internationally outstanding. We will continue to profit from his work for a very long time. We will miss him and always remember him with gratitude.

Supervisory board, management board, members and employees of edacentrum e.V.
