## Scientific assistant (m/f) wanted

[1]

If you are interested in the development of microelectronics applications and would like to apply machine learning and artificial intelligence knowledge, [our latest job offer \(in German only\)](#) [2] could be something for you. We offer an opportunity to transfer research results into industrial applications together with partners from industry and science and to do your own research and, if interested, to work on a PhD research.

edacentrum | Schneiderberg 32 | 30167 Hannover | fon: +49 511 762-19699 | email: [info@edacentrum \[dot\] de](mailto:info@edacentrum.de)[up](mailto:up)
