Welcome to KI4BoardNet

In the research project "Integral Agile E/E Development for Fusion and Standardized Power and Data Wiring Systems - KI4BoardNet" - twenty-two partners from research and science as well as from the electronics and user industries are working under the coordination of CARIAD experts to develop new development methods for efficient wiring system development.

The MANNHEIM-KI4BoardNet project (project labels 16ME0763-16ME0784 is supported within the framework of the funding announcement "Electronics and software development methods for the digitalisation of automobility" (**MANNHEIM**) by the German Federal Ministry of Research, Technology and Space (**BMFTR**) gefördert.
