Trend Reports

Here, you find a list of the trend reports of DAC and DATE, that edacentrum has created for its members since 2002. Additionally you see links to corresponding abstracts and the general content. For the so-called "[edaTrend"-Reports](#) ^[1] written in 2007 and 2008 the links lead to reading examples including the comprehensive tables of content.

The PDF-Files of the trend reports itself are protected by a password.
