3rd Workshop on RISC-V Activities

Virtual Online Event, October 8th, 2020

This joint academic/industry workshop aims to stimulate the exchange of information among the attendees about already existing or planned RISC-V activities. The workshop provides a platform for how these activities can be extended across projects or to develop new ideas, activities and collaborations. This workshop has been initiated by the BMBF funded projects COMPACT, SAFE4I and Scale4Edge.
